# NEW PRODUCT ON MARKET!!

## Honda HS-101V

### Ultra-Portable Ultrasound for Equine, Bovine, Swine

PGI announces the Honda HS-101V veterinary ultra-portable ultrasound scanner. It's the newest solid-state digital system on the market!

This powerful scanner is under 5 pounds and comes with a 2-hour battery pack and shoulder strap. Use it everywhere! Its large easy-to-see screen gives excellent diagnoses of large animals and is great for horse, cattle, and pig repro work.

It runs linear, convex and rectal probes and has great image quality. Use the flash memory and USB port for easy image and data transfer to your computer. Offered at a price breakthrough that is extremely affordable!
